#### 1 A standard certification:

Punto/s:

1

Seleccione  
menos una  
respuesta.

- ☐ is just the validation without the need of any written sign. ✗
- ☐ always follows the same given steps in which everybody can participate and the agreement is reached by voting. ✗
- ☒ confirms that the specified requirements are meet. ✓
- ☐ must be done by the same company using the standard. ✗

Correcto

Puntos para este envío: 1/1.

#### 2 The certification of a standard is useful for:

Punto/s:

1

Seleccione  
menos una  
respuesta.

- ☒ the provider, who can advertise about the quality of its products. ✓
- ☒ the purchaser, as it simplifies the selection of products by giving a clearer idea of what can be expected from

them. ✓

☒ Regulatory bodies, as it simplifies legislation (removing the need to include technical details already covered by the standard). ✓

☐ distract attention about the defects of a product. ✗

Correcto

Puntos para este envío: 1/1.
